

PUNCHING AND DEEP DRAWING MACHINE TRIAD - 40 BOXES / MIN

« *The punching and deep drawing machine TRIAD, 3 work stations for a high productivity of round boxes for spreadable cheese triangles directly from reels.* »

- The punching and deep drawing machine TRIAD is dedicated to the manufacturing of **round drawn cardboard boxes** for spreadable cheese wedges.
- The TRIAD produces lids and bottoms. Linked with another TRIAD and a mounting machine NORIA, this production line can manufacture up to **80 boxes / min**.
- The punching and deep drawing machine TRIAD converts **white cardboard reels** (from 350 to 450 gr/m²).

- **Weight** : 4 tons
- **Power consumption** : - electricity : 18 kWh
- compressed air : 16 m³/h at 6 bars
- **Required ground surface** : 7 m²
- **Dimensions of boxes** : - average diameter 111 mm
- adjustable height from 15 to 70 mm
(from 1 to 4 heights of triangles)
